**MORTGAGE GUARANTY INSURER'S REPORT OF POLICYHOLDERS POSITION FOR
PERIOD ENDING**

IMPORTANT - ENTER THE QUARTER OR CALENDAR YEAR END PERIOD FOR WHICH THIS REPORT IS BEING FILED IN THE HEADING ABOVE AND ON PAGES 2 AND 3. ATTACH THIS REPORT TO THE HARD COPY QUARTERLY OR ANNUAL STATEMENTS YOU FILE WITH US.

ARS § 20-1550 describes the calculation of Minimum Policyholders Position. Policyholders Position is defined in ARS § 20-1541(5), as including the contingency reserve established under ARS § 20-1556 and surplus as regards policyholders reported in your financial statement. All calculations of Minimum Policyholders Position shall consider layers of coverage, deductibles and excess reinsurance. The face amount of the mortgage shall include reinsurance assumed and shall be calculated net of reinsurance ceded under agreements which are in compliance with ARS § 20-1557(C). When reporting on the minimum policyholder position the insurer shall make adjustments for the following:

- A. Exclude the Minimum Policyholders Position provided by A.R.S. § 20-1550 on an individual or group loan in default for which an insurer has established a loss and loss adjustment expense reserve greater than or equal to the Minimum Policyholders Position for such loan. (Deduction to be taken on Line 20)
- B. In the event that the loss and loss adjustment expense reserve on an individual or group loan is less than the Minimum Policyholders Position for such loan as provided by A.R.S. § 20-1550 an insurer shall not exclude the Minimum Policyholders Position for such loan from its calculation of its Minimum Policyholders Position, but rather shall add the loss and loss adjustment expense reserve for such loan to its total Policyholders Position as computed on this form. (Addition to be made on Line 25)

You must complete the tables on pages 2 and 3 to calculate the Minimum Policyholders Position for comparison with actual Policyholders Position. The amounts reported on Lines 1 through 19 should be gross before any deductions or adjustments on account of established loss reserves.

Line 20 Instruction – Include on this line the total calculated Minimum Policyholder Position on all individual and group business for which the insurer has established appropriate loss reserves that are in excess of the calculated Minimum Policyholder Position.

Line 24 Instruction – Only include a deduction for subsidiaries' minimum policyholders position by an amount equal to the excess of the subsidiary's minimum policyholders position over the subsidiary's contingency reserves, on a subsidiary by subsidiary basis.

Line 25 Instruction – Include on this line the loss and loss expense reserves in individual and group contracts reported by the insurer where the calculated Minimum Policyholder position exceeds those loss reserves. The calculated Minimum Policyholder Position for this business shall not be deducted on Line 20.
